## Devoted to Fellowship, Encouraged in Leadership

"Every day they continued to meet together in the temple courts. They broke bread in their homes and ate together with glad and sincere hearts." Acts 2:46  
 (NIV)

After graduation, many of our students pursue their leadership and career passions by enrolling in universities across South Sudan and Uganda. While navigating new leadership roles and career opportunities, reconnecting with like-minded friends and fellow believers is vital.

Last month, some of our alumni students now attending various universities met together in homes to share their experiences, difficulties, and successes from the past semester over a fellowship meal.

These fellowship meals give alumni a chance to encourage one another and stay connected to the transformational culture and values of the Leadership Academy of South Sudan. They shared how they have overcome challenges at their universities and remained focused to their vision.

Meanwhile, 9 LASS graduates just began their internships at influential organizations throughout East Africa. We are so proud of their commitment and dedication to their leadership responsibilities – and ultimately to their faith.

## Will you join us in prayer for our current students and alumni?

For our university students on break,

We Pray For Rest, Rejuvenation And Continued Transformation Into Christ-Centered Young Leaders.

Whether our students are beginning another term at the Academy, enrolling in University, applying for scholarships, or seeking other education and entrepreneurial opportunities we ultimately pray that they remain focused on Jesus and answering His call on their lives.

## May Activities

- New Wells Completed - 3
- Wells Rehabilitated - 2
- People Received Safe Water Access - 2500
- Heard the Gospel - 233
- Participated in Water Access, Sanitation & Hygiene Sessions - 233

## Showing Progress

Following up on our health and sanitation awareness and training efforts in previous months, community visits in May found that more than 94% of the households had sanitary latrines in place. Praise the Lord for their eagerness and hard work in achieving better health for their communities.

81 new latrines!

## Sustaining Relationships

Our work here is not temporary. Sustainability is a critical component of all our programs – we want clean water and best health practices to carry on long after we leave. As our water team works to provide access to clean water, our health team equips, trains, and mentors communities on sanitation and hygiene best practices as well as preventative health education—when done together, improved health and lasting impact exponentially increase.

This month, we deepened relationships with 3 communities in northern Uganda. One of our greatest joys is seeing community members take the lead in transforming their communities. At each well dedication and Health & Hygiene session, we watched hundreds of multi-generational community members actively engage in the activities.

## All 4God

At 4africa, we believe God can use any opportunity to demonstrate his love for mankind. In May alone, through work across all 4 of our programs, 647 people heard the Good News of Jesus Christ! Whether through well dedications, small group Bible studies, household meet-and-greets, or everyday conversation while we serve, we are THANKFUL to partners like you who make these opportunities possible. Your generous giving supports more than just our work – it impacts souls for eternity.
